CAREER OBJECTIVE

B.E. Computer Science and Engineering student (CGPA 7.9/10) with hands-on internship experience in full-stack web development and a strong foundation in Python, DSA, and OOP. Built and shipped a working web application from design to deployment; seeking an entry-level Python / Full-Stack Developer role to contribute to real-world products while growing technically.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript (Full-Stack fundamentals: frontend + backend integration)
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming
- **Tools:** Git, GitHub

INTERNSHIP EXPERIENCE

Full-Stack Development Intern — Vaizi Company

- Built and integrated frontend and backend components for web applications under guidance of senior developers.
- Collaborated with the development team to debug issues and implement feature requests, strengthening practical full-stack skills.
- Applied programming and problem-solving skills in a professional software development workflow.

PROJECTS

AI-Generated Image Detection — Mini Project

- Developed a machine learning web application to detect whether a given photo is AI-generated or real.
- Implemented image preprocessing, feature extraction and model prediction using Python, TensorFlow and OpenCV.
- Designed a user-friendly interface using HTML, CSS and JavaScript to upload and analyze images in real time.

EDUCATION

B.E. Computer Science and Engineering — V S B College of Engineering Technical Campus

Expected Graduation: 2028 | CGPA: 7.9 / 10

Higher Secondary Education (12th)

61%

Secondary Education (10th)

69%

CERTIFICATIONS

- NPTEL — Python for Data Science
- Infosys Springboard — Python Foundation
- Infosys Springboard — Data Structures and Algorithms (DSA)
